

Now offering Self-Watering Planters

DuMor Site Furnishings now offers EarthPlanter Premium Self-Watering Inserts as an option or retrofit for a large selection of our planters. The EarthPlanter system is the perfect solution for any commercial application that wants the beauty of real plants without daily maintenance.

- Complete elimination of daily and/or 4-5 day per week watering schedules.
- Significant labor savings as customers adjust watering schedules and reduce time associated with planter maintenance.
- Uses up to 80% less water than a traditional planter.
- Eliminates the guesswork of under or over-watering containers.
- Produces bigger, more vibrant plant growth by eliminating stress cycles.
- Planting tray depth: 8", Soil capacity: 1.45 cubic feet, Water capacity: 9 gallons.

Planting Tray for soil-less mixture. Design promotes excellent water retention, aeration and drainage.

RapidWick™ Watering System delivers the nutrients your plants need, automatically!

Large water reservoir allows you to go up to 2 weeks between watering.

Side overflow outlet ensures planter can't be overfilled.
